

Scapa MEDIFIX Solutions™

Wearable Medical Device Fixation

Enabling devices that live with you

Scapa MEDIFIX Solutions™

Scapa Healthcare is the demonstrated global market leader in customized, Skin Friendly Turn-Key Solutions for high-performing skin contact applications.

We have over 25 years experience in developing and manufacturing skin friendly medical device fixation solutions which seamlessly integrate technology with the body, providing security and peace of mind.

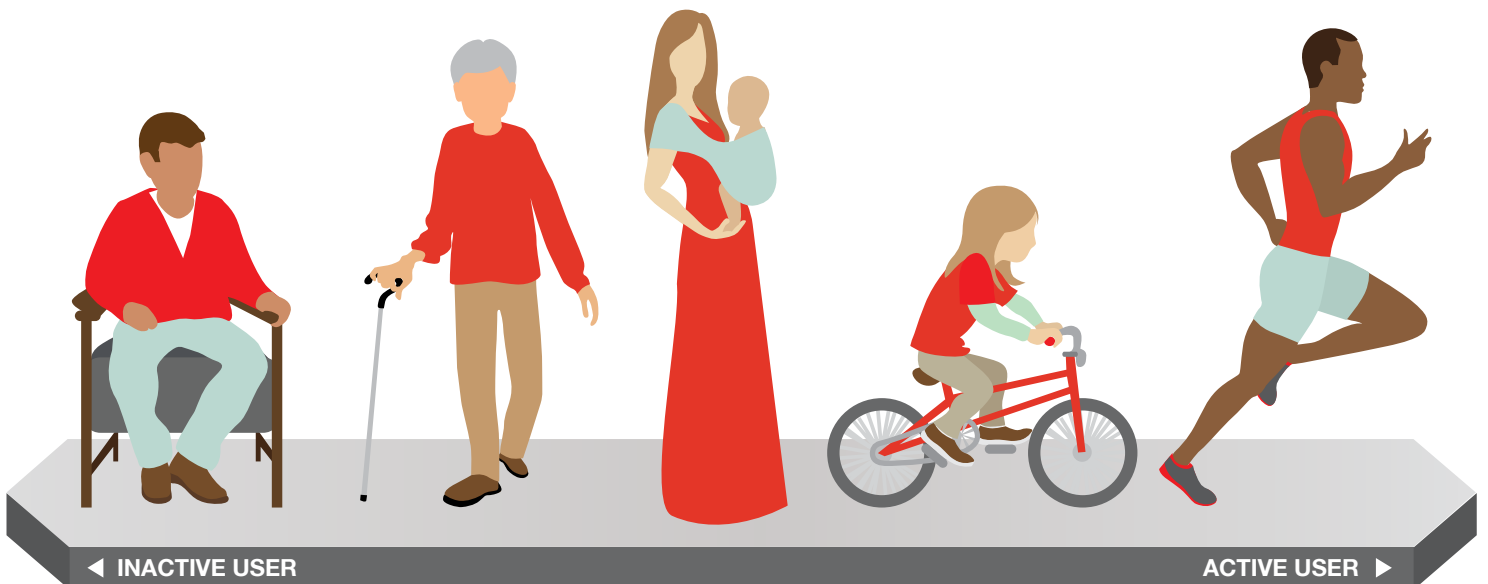

MEDIFIX Solutions™:

- Custom constructions designed for performance across all user lifestyles
- User friendly designs for ease of application and removal
- Tailored materials for attachment to any part of the body
- Proven adhesive options for multi-hour to multi-day wear

User Spectrum

Like the devices you manufacture, people come in all shapes and sizes. MEDIFIX Solutions™ brings our design expertise and broad range of medical adhesives, films, and coatings, coupled with diverse manufacturing capabilities, to offer skin friendly turn-key solutions to our business partners. Scapa is an experienced partner with a portfolio of materials and capabilities that speak to breathability, conformability, and gentle wear.

Design Considerations

Scapa Soft-Pro® Adhesive and Bioflex® Material portfolios allow for customized interfaces that can be applied anywhere on the body, withstanding various activity levels, age, moisture levels, skin types, device sizes and types of use for varying lengths of time.

Ease of Use

Ease of application is key for any wearable device. We know how to support easy-to-understand, simple application via design, materials and on-product printed instructions.

Comfort

Our portfolio of skin friendly materials and adhesives design options speak to breathability, conformability, and gentle wear, no matter where the device is worn.

Activity

A user may be wearing the device while showering or bathing, or while participating in high-intensity or water activities, or may be sedentary.

Wear-Time

Our materials will ensure product performance and fixation security, encompassing short, medium and long wear times.

Safety

Patient safety is paramount. Skin friendly medical grade materials and adhesives offer bio-compatibility and patient well-being.

Device Type

Complex materials and adhesive designs for simple solutions, compatible with all wearable fixation constructions.

Stand alone

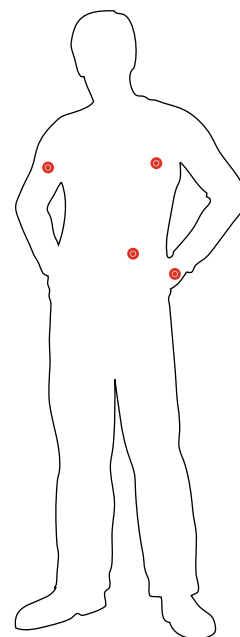

Sensors measure activity and send signals out to another device. Example: Glucose, cardiac or oxygen monitor, athlete training device.

Electrical lead

Sensors measure activity and send signals through a lead connected to a device. Example: EKG monitor, pulse oximetry.

Drug delivery

A patch attached to a device that delivers drugs. Example: Insulin pump.

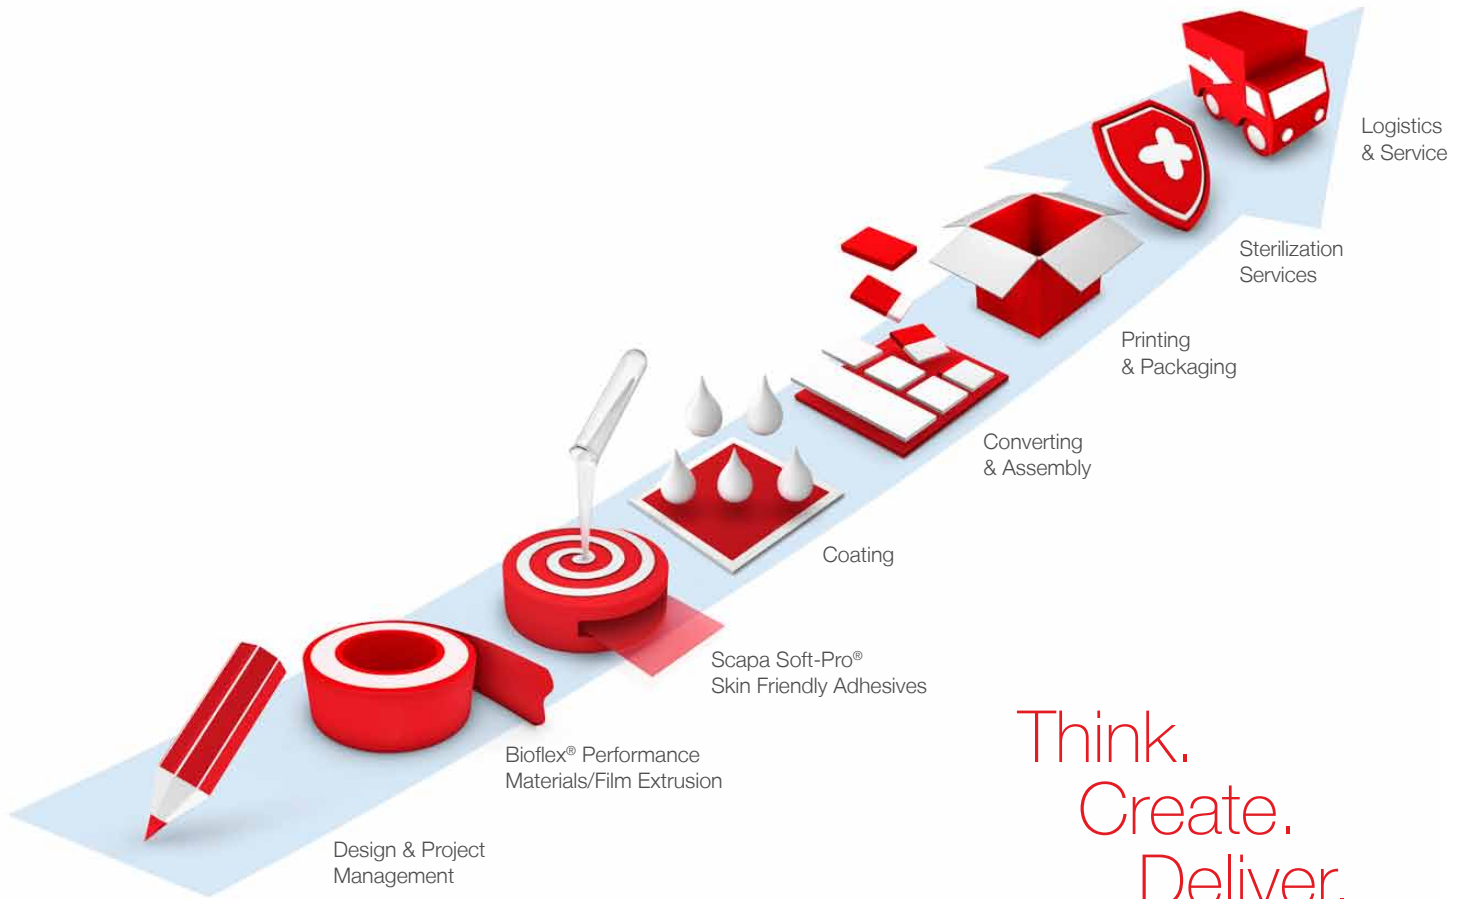

Why Scapa?

- B2B partnership strategy
- Turn-Key solution capabilities
- Rapid speed to market
- Broad technology portfolio
- Vertical integration & strong manufacturing know-how
- Single supplier, dual source
- Trusted quality

Skin Friendly

Turn-Key Solutions

Think.
Create.
Deliver.
