

# Exafit® Flexographic Tapes

Scapa's range of Exafit® high performance plate mounting tapes meets all modern flexographic printing needs.

Product	Thickness without liner (µm)	Peel adhesion* (N/25mm)	Features and Benefits
<b>550µ Series</b>			
Exafit® 43200	550µm (20 thou)	4 open side 7 liner side	Softer hardness foam tape designed for premium half-tone print results at elevated machine speeds. Standard adhesion on the plate side and clean removal.
Exafit® 43201	550µm (20 thou)	4 open side 10.3 liner side	Softer hardness foam tape designed for premium half-tone print results at elevated machine speeds. Higher adhesion and tack on the plate side and clean removal.
Exafit® 43205	550µm (20 thou)	4 open side 4.5 liner side	Softer hardness foam tape designed for premium half-tone print results at elevated machine speeds. Lower adhesion on the plate side and clean removal.
Exafit® 43220	550µm (20 thou)	4 open side 7 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Standard adhesion on the plate side and clean removal.
Exafit® 43221	550µm (20 thou)	4 open side 10.3 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Higher adhesion and tack on the plate side and clean removal.
Exafit® 43222	550µm (20 thou)	4 open side 10 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Higher adhesion on the plate side and clean removal.
Exafit® 43225	550µm (20 thou)	4 open side 4.5 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Lower adhesion on the plate side and clean removal.
Exafit® 43229	550µm (20 thou)	10.3 open side 4 liner side	Medium hardness <b>reverse wound</b> foam tape designed when the application requires to mount the plate first onto the tape. Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Uses a white corrugated PVC liner. Higher adhesion and tack on the open side and clean removal.
Exafit® 43240	550µm (20 thou)	4 open side 7 liner side	Higher hardness foam tape designed for premium block and solid printing. Standard adhesion on the plate side and clean removal.
Exafit® 43241	550µm (20 thou)	4 open side 10.3 liner side	Higher hardness foam tape designed for premium block and solid printing. Higher adhesion and tack on the plate side and clean removal.
Exafit® 43245	550µm (20 thou)	4 open side 4.5 liner side	Higher hardness foam tape designed for premium block and solid printing. Lower adhesion on plate side and clean removal.

Product	Thickness without liner (µm)	Peel adhesion* (N/25mm)	Features and Benefits
<b>400µ Series</b>			
Exafit® 43100	400µm (15 thou)	4 open side 7 liner side	Softer hardness foam tape designed for premium half-tone print results at elevated machine speeds. Standard adhesion on plate side and clean removal.
Exafit® 43101	400µm (15 thou)	4 open side 10.3 liner side	Softer hardness foam tape designed for premium half-tone print results at elevated machine speeds. Higher adhesion and tack on the plate side and clean removal.
Exafit® 43120	400µm (15 thou)	4 open side 7 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Standard adhesion on plate side and clean removal.
Exafit® 43121	400µm (15 thou)	4 open side 10.3 liner side	Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Higher adhesion and tack on the plate side and clean removal.
Exafit® 43129	400µm (15 thou)	10.3 open side 4 liner side	Medium hardness <b>reverse wound</b> foam tape designed when the application requires to mount the plate first onto the tape. Medium hardness foam tape designed for superior half-tone and combination print results at elevated machine speeds. Uses a white corrugated PVC liner. Higher adhesion and tack on the open side and clean removal.
Exafit® 43140	400µm (15 thou)	4 open side 7 liner side	Higher hardness foam tape designed for premium block and solid printing. Standard adhesion on the plate side and clean removal.
<b>1520µ Series</b>			
Exafit® 43620	1520µm (60 thou)	4 open side 7 liner side	Medium hardness foam tape designed for premium half-tone print results at elevated machine speeds. Standard adhesion on the plate side and clean removal. The excellent properties of Exafit® 43220 at a thickness appropriate for printing board and corrugated board, or for use with thin plate.

\*Peel adhesion is measured at 90° to the surface on stainless steel.

All **Exafit®** products feature an embossed PP liner.
