

Renfrew Hockey Tapes

The Choice of Professionals

RENFREW
 **OCKEY TAPE**

The Toughest Tapes on Ice...

**Deliver the Performance
Professionals Demand.**

Polyflex Shin Pad Tape

Polyflex Shin Pad Tape is ideal for securing and stabilizing protective shin guards. This highly conformable tape is formulated to provide sufficient elasticity and memory to hold shin guards and other equipment securely in place, yet allow players to skate comfortably throughout the game.

- Secures and stabilizes shin guards and other equipment
- Tough elastic tape holds equipment securely in place, yet allows players to skate comfortably
- Water-resistant product requires less frequent taping
- Available in clear or colors to match any uniform

STRETCH Get a Grip on Your Game...

StretchRap™ 206 Cohesive Tape

StretchRap 206 Cohesive Tape is indispensable for creating custom grips on hockey sticks or other sports handles. This flexible tape sticks to itself, is easily torn by hand, and provides the exact feel and comfort players want.

- Sticks to itself without adhesive
- Leaves no adhesive residue upon removal
- Extremely conformable
- Available in colors

Available colors:

YELLOW	GREEN
RED	ROYAL BLUE
WHITE	BLACK
BLUE	BRIGHT PINK
PURPLE	BROWN
BRIGHT ORANGE	BRIGHT GREEN

Protect Your Investment...

ShaftSaver™ Super Wrap

ShaftSaver Super Wrap is a tough clear polyurethane film used as a protective wrap on the lower shaft of composite hockey sticks. This transparent film covers the stick's shaft and helps protect it from the nicks and cuts that lead to premature breakage, without hiding its graphics.

- Protects your hockey stick investment
- Easily applied to section of shaft, blade or goalie stick
- Tough and strong, protects against nicks and cuts that cause premature shaft breakage
- Covers all or any part of the shaft
- Adds a "soft grip" feel

Pro-Blade® Friction Tape

Pro-Blade Friction Tape is a more aggressive and tacky version of our black cloth tape. The product's aggressive adhesive provides exceptional adhesion to the blade of the stick, while its tacky surface allows for increased vibration absorption and enhanced puck control.

Go for the Gold...

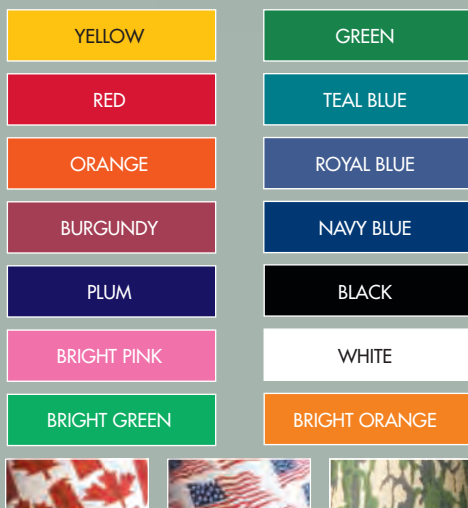

Renfrew **CMP Gold™** Premium Hockey Tape

CMP Gold Premium Hockey Tapes consist of a polyester/cotton blended cloth and a high-performance adhesive system specially formulated to provide increased wear characteristics. CMP Gold products stay on the stick longer than standard cloth tapes and require less frequent taping while providing improved performance and durability.

- New adhesive formulation provides increased wear characteristics.
- Stays on the stick longer than standard cloth tapes.
- Requires less frequent taping.

Available colors:

Also available in a variety of patterns.
