THE CHOICE OF PROFESSIONALS

# THERE IS NOW AN ALTERNATIVE

# PRS10 PRO™

THE CHOICE OF PROFESSIONALS

Everybody knows if gas fires are fitted or serviced incorrectly they have the potential to be extremely dangerous. Carbon monoxide can be a silent killer with escaping fumes undetectable by sight, taste or smell.

That's why it is essential to use a product specifically designed to seal gas closure plates – rather than take a chance on other products that are not able to meet the demanding criteria of this critical application.

After all – this choice can make the difference between life and death.

**PRS10 PRO tape from Scapa is the NEW approved product available NOW**

- Premium waterproof polycloth high performing tape with specially designed adhesive
- Available in 50mm x 2.8m, 10m and 25m lengths
- Fully marked with PRS10 approval for easy identification
- Quality gloss surface with writable surface
- Good abrasion resistance
- Can be torn by hand and unwound without difficulty for ease of use
- Sticks well to a variety of different surfaces
- Strong yet durable
- Excellent adhesive designed for critical application
- Also can be used for other general purpose plumbing and gas related applications requiring strength, high adhesion and high performance

Available from stock on short lead times

**PRS10 PRO tape from Scapa** has been specifically designed to meet the stringent performance requirements of British Gas Specification PRS10 - Issue 2.
